

# What's New?

## Adjustable Square Horizontal Cap

- For horizontal venting applications
- New design provides installer an additional 5" of flexibility
- Now even simpler to connect the venting system to the termination
- No need to be exact in the length of your horizontal run
- Sleek, low profile design
- Supplied with insulation pad

|        |            |                                      |
|--------|------------|--------------------------------------|
| 4DAHCS | 4 x 6-5/8" | 4" Adjustable Horizontal Termination |
| 5DAHCS | 5 x 8"     | 5" Adjustable Horizontal Termination |
